and the text.

Here also is the 'Original Vigil'. It says 2016 but it is actually 2015 (from before we blended it with more classic elements and brought it back to the nave). This is a link to the blog about it: <https://blissfulirreverence.blogspot.com/2015/04/a-field-of-dreams-vigil-keeping.html> . The colors are for de-centered leadership (different volunteers take different colors). Music was led acapella and with simple instruments. The Eucharistic Prayer was the Hippolytus translation. And yes, it did manage to bring Vigil into the heart of the congregation (although the new rector is much more traditional about it). I have the later 'blended' version if someone wants it.
